Megan is the “star” and foundation of Tealgrove Retrievers.

Meg is “officially” retired but I don’t think she got the memo. Always keen to work, her senior years have not slowed her down one bit. At 12 ½ Meg is incredibly healthy and continues to love waterfowl and upland hunting, training, and Scent Detection work. She is a Canadian National Master Hunter, Canadian Field Trial Champion, Qualified for 4 Nationals, has obtained Amateur Field Trial points, is Qualified All Age in the US, is a Grand Master Hunter, a Master Hunter and obtained her SD-S in her first attempt.

In 2019, Meg was asked to be the Official Test Dog for the Canadian National Retriever Field Trial Championships, held in Brighton, Ontario. It was an incredibly special honour and Meg performed admirably. For me, it was the honour of a lifetime to stand beside Meg at that National, knowing that it would be her final “competitive” performance. She did not disappoint and in fact, she rose to the occasion.

In 2013 Meg was bred to NFC FC AFC Fresh Squeezed Juice and produced a litter of 3 puppies – 2 boys and a girl. Both boys have excelled at Field Trial in Canada and the US, while Hattie is happy as a family companion in Minnesota.

Meg is kind, gentle, and easy. In the field, she turns it on. In the house, she is a dream. Easily trained and willing to work. Meg is one in a million.

A WINNING TEAM

At the 2019 at the Canadian National Retriever Field Trial Championships, held in Brighton, Ontario, Megan achieved 4th place, and her son, Cal got 1st!
